Dear «SALUTATION»

I refer to a petition you signed concerning uranium mining. I have been requested to reply to you on the Premier's behalf.

Please be assured that the Queensland Government has given careful consideration to all available information on uranium mining and there are no plans to change the policy position on this matter. The Government remains of the view that Queenslanders should not be exposed to the public health, security and environmental risks associated with the development of a nuclear industry.

Again, thank you for bringing your views to the Premier's attention.

Yours sincerely

Nick Williams
Senior Policy Advisor
