Situation	<p>Background</p> <p>As outlined in the IAB dated 2nd October 2019, non-violent, disruptive protests are expected to occur in the Brisbane CBD and South Brisbane areas during 'International Rebellion' week (7th to 11th October 2019) with protester numbers and actions likely to be greater than that observed on Brisbane Rebellion Day (6th August 2019), which resulted in the arrest of 73 people. Extinction Rebellion (ER) South East Queensland (SEQ) and surrounding ER groups expect thousands of rebels to descend on the QLD capital with large crowds of protesters also expected to shut down capital cities around the world to demand:</p> <ul style="list-style-type: none"> • That the Government start telling the truth about the climate and ecological emergency and that they along with other institutions (e.g. the media) begin communicating this "urgency for change". • That the Government enact legally binding policies to reduce carbon emissions in Australia to net zero emissions by 2025. • That the Government create citizens' assemblies to ensure plans to curb emissions are carried out by politicians. <p>A 'Movement of Movements' strategy has been introduced by ER groups as part of the 'International Rebellion', which will involve a range of groups¹ allied to ER (e.g. the animals, peace and social justice movements) taking to the streets to disrupt 'business as usual'.</p> <p>While most protest activity scheduled for this week is likely to occur without warning, some participants have suggested that the rebel alliance would work best² if protesters not only disrupted 'business as usual' for ordinary people but focussed on shutting down Parliament/Government, the economic and financial systems and the rich and powerful elites who are responsible for running these systems.³</p>

Situation	<p>Background</p> <p>As outlined in the IAB dated 2nd October 2019, non-violent, disruptive protests are expected to occur in the Brisbane CBD and South Brisbane areas during 'International Rebellion' week (7th to 11th October 2019) with protester numbers and actions likely to be greater than that observed on Brisbane Rebellion Day (6th August 2019), which resulted in the arrest of 73 people. Extinction Rebellion (ER) South East Queensland (SEQ) and surrounding ER groups expect thousands of rebels to descend on the QLD capital with large crowds of protesters also expected to shut down capital cities around the world to demand:</p> <ul style="list-style-type: none"> • That the Government start telling the truth about the climate and ecological emergency and that they along with other institutions (e.g. the media) begin communicating this "urgency for change". • That the Government enact legally binding policies to reduce carbon emissions in Australia to net zero emissions by 2025. • That the Government create citizens' assemblies to ensure plans to curb emissions are carried out by politicians. <p>A 'Movement of Movements' strategy has been introduced by ER groups as part of the 'International Rebellion', which will involve a range of groups¹ allied to ER (e.g. the animals, peace and social justice movements) taking to the streets to disrupt 'business as usual'.</p> <p>While most protest activity scheduled for this week is likely to occur without warning, some participants have suggested that the rebel alliance would work best² if protesters not only disrupted 'business as usual' for ordinary people but focussed on shutting down Parliament/Government, the economic and financial systems and the rich and powerful elites who are responsible for running these systems.³</p>
Summary	<p>Update: Brisbane Protest Action 7th of October 2019</p> <p>Protest activity commenced in Musgrave Park, South Brisbane where approximately 300 – 400 persons gathered. A march proceeded at 1115hrs from Musgrave Park to Queens Gardens, Brisbane CBD. During the march protesters blocked intersections throughout West End for several minutes at a time. The march paused briefly across the Victoria bridge where a small group of protesters 'locked on' to a portable wooden stage</p>

blocking vehicular traffic. The remainder of the march continued across Victoria bridge onto William Street where a further 'lock on' occurred by a small group of protestors again using a portable stage. The march continued, leaving the 'locked on' protestors behind and concluded in Queens Gardens at approximately 1240hrs.

Specialist police attended the scene and removed all 'locked on' protestors from both the Victoria Bridge and William Street. As a result, six (6) persons were arrested and conveyed to Brisbane City Watch house.

Several protestors remained in Queens Gardens after the march where some speeches were made.

Further protest activity occurred at George Street and Charlotte Street at around 1600 hrs, which included a group of protests obstructing traffic flow along George Street. One protester glued themselves to the road. Specialist Police removed the person glued to the road and two (2) persons were arrested and taken to Brisbane City Watch house.
