Hi [Redacted]

I have included the climate change question back in as well as this new question.

The purified recycled water question will only be asked of SE Qld residents.

Hopefully, I have highlighted correctly.

Many thanks

Good morning Emmy,

Following up from our call, I've had a look at our previous covid key insights tracking work and believe this is the question you mentioned:

D5 This question asks you about **purified recycled water** (wastewater purified to a quality that exceeds current drinking water standards and can be used to replenish Wivenhoe Dam or other existing water supplies). To what extent do you agree or disagree with the following statements about purified recycled water? Where 0 means 'Completely disagree', and 10 means 'Completely agree'.

Purified recycled water is a sustainable source of quality drinking water	1
[ASK IF Q3b Region = 1 SEQ] SHOW: Purified recycled water is treated to a level of quality that exceeds current drinking water standards before it is piped to replenish Wivenhoe Dam	2
[ASK IF Q3b Region = 2 ROQ] SHOW: Purified recycled water is treated to a level of quality that exceeds current drinking water standards before it is piped to replenish existing water supplies	
[ASK IF Q3b Region = 1 SEQ] SHOW: Using purified recycled water to replenish the drinking water supply in Wivenhoe Dam makes sense during times of drought	3
[ASK IF Q3b Region = 2 ROQ] SHOW: Using purified recycled water to replenish the drinking water supply in existing water supplies makes sense during times of drought	
[ASK IF Q3b Region = 1 SEQ] SHOW: Using purified recycled water to replenish the drinking water supply in Wivenhoe Dam outside of drought makes sense to me	4
[ASK IF Q3b Region = 2 ROQ] SHOW: Using purified recycled water to replenish the drinking water supply in existing water supplies outside of drought makes sense to me	
I would be comfortable drinking purified recycled water	5
I would be comfortable brushing my teeth with purified recycled water	6

[ASK IF Q3b Region = 1 SEQ] SHOW:

If South East Queensland were to experience a drought in the next 2-3 years, I would be comfortable with purified recycled water being added to my drinking water supply (via Wivenhoe Dam).

[ASK IF Q3b Region = 2 ROQ] SHOW:

If South East Queensland were to experience a drought in the next 2-3 years, I would be comfortable with purified recycled water being added to my drinking water supply (via existing water supplies).

Please let me know if you'd like it included for the upcoming wave, or if you'd like any changes made.

Objectives:

- Gain insights about a range of issues facing everyday Queenslanders.
- Examine Queenslanders views and ongoing response to the government's updated Objectives for the Community:
 - Good, secure jobs in our traditional and emerging industries
 - Deliver even better services right across Queensland
 - Protect and enhance our Queensland lifestyle as we grow, including creating opportunities for First Nations Queenslanders to thrive in modern Queensland.
- Identify any issues, concerns and/or potential barriers to success to future policy direction as the government drives its forward agenda of growth and prosperity.
- Identifying opportunities to create and sustain value for government and its stakeholders – with insights that may help inform and/or enable policies/programs/services to be tailored and targeted to the needs of the community.

<BUTTON LINK TO 'Your Privacy'>

We would like you **to take part in a survey** about a **range of issues facing Queenslanders**. Ipsos is conducting this survey on behalf of **the Queensland Government**.

The survey asks about your experiences and opinions, in relation to current issues facing Queenslanders. The answers you give help **the Queensland Government to better understand and plan for the needs of Queenslanders**.

The survey will take around 15 minutes to complete depending on your answers. You can stop at any time (by closing your window) and resume later (by re-clicking the link in your invitation email).

Your responses will be anonymous, and end-users of the research will not be able to identify you in the data unless you indicate otherwise at the end of the survey. The information you provide will only be used for research purposes.

Objectives:

- Gain insights about a range of issues facing everyday Queenslanders.
- Examine Queenslanders views and ongoing response to the government's updated Objectives for the Community:
 - Good, secure jobs in our traditional and emerging industries
 - Deliver even better services right across Queensland
 - Protect and enhance our Queensland lifestyle as we grow, including creating opportunities for First Nations Queenslanders to thrive in modern Queensland.
- Identify any issues, concerns and/or potential barriers to success to future policy direction as the government drives its forward agenda of growth and prosperity.
- Identifying opportunities to create and sustain value for government and its stakeholders – with insights that may help inform and/or enable policies/programs/services to be tailored and targeted to the needs of the community.
